NOTICE OF AVAILABILITY OF THE PROPOSED REMEDIAL ACTION PLANS (PRAP) AND 60 DAY PUBLIC COMMENT PERIOD FOR THE WEST CENTRAL PHOENIX WEST OSBORN COMPLEX WATER QUALITY ASSURANCE REVOLVING FUND (WQARF) REGISTRY SITE

The Arizona Department of Environmental Quality (ADEQ) has completed the Proposed Remedial Action Plan (PRAP) for the Shallow Groundwater System (SGWS) and the PRAP for the Lower Sand and Gravel Subunit (LSGS) within the West Central Phoenix, West Osborn Complex (WOC) WQARF site in Phoenix, Arizona (A.A.C. R18-16-408(C)). A PRAP documents the results of the remedial investigation and feasibility study and identifies the proposed remedy and its estimated costs.

The proposed remedies for the SGWS and LSGS aquifers within the West Central Phoenix WOC WQARF site are as follows:

SGWS – installation and operation of a groundwater pump and treat system at the south edge of the WOC facility. The treated water will be discharged to the Salt River Project Grand Canal for use in irrigation. Monitored natural attenuation will be the remedy for the downgradient portion of the site. The estimated cost for the proposed remedy is \$4.1 million.

LSGS – monitored natural attenuation with contingencies to provide liquid granular activated carbon treatment for City of Phoenix (COP) wells COP-70 and COP-71 and request Salt River Project to continue not pumping wells SRP 8.5E-7.5N and SRP 9.5E-7.7N. The estimated cost for the proposed remedy is \$4.57 million.

Copies of the two PRAPs, the remedial investigation report and the feasibility study reports for both the SGWS and LSGS are available for review at the Burton Barr Central Library, located at 1221 N. Central Avenue in Phoenix, Arizona, 85004, (602) 262-4636. Copies are also available on the ADEQ web site, <http://www.azdeq.gov/environ/waste/sps/wcp.html> or at ADEQ Records Center, 1110 W. Washington Street, Phoenix, Arizona 85007. In Phoenix, please call (602) 771-4380 or email recordscenter@azdeq.gov 24 hours in advance to schedule an appointment to review the documents.
